Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with crysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my discase, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TING-TURE, and procured me a bottle, which I now pronounce TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, the contents of one bottle I fert much improved; and not having taken but two bottles, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now onjoy by the use of this most invaluable medicine. Yours, WESLEY ROCK,

Schroeder, near Saratoga street.

could it perform the astonishing cures made by it?

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, incrnal and external, without receiving any relief; I was at last advised to try HAMPYON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it 7 6.11. last advised to ty HAMPION'S VASIFABLE TROUBLES, before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTH, (Va.,) Aug. 18, 1861.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizzinees, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

WILLIAM T. EVANS. KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HAR-YESTER
IS BEFORE THE PUBLIC FOR THE FIRST TIME!
I'mplement now in use. It takes the seed from the field, leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingers, or teeth, eatch all the heads, the revolving knives cut them off and throw them back into the box, which will cross a twenty-acre field without emptying. The heads are then loaded into a wagon and taken directly to the mill for cleaning, thus diminishing the labor three-fourths, and saving all the seed. This machine comes so low that every farmer will have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

We, the undersigned, do certify that we have seen Mr Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser'and his bills represent it to be. The farmers have given one-half for gathering and threabing.

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and eleaning. I think his machine is first-rate, and answers all the purpose that is intended.

The following points out the profitable nature of the KRAUSER'S PATENT CLOVER-SEED HARVESTER We have conversed with a number of Farmers, and they are of opinion that there are at least 3,900 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will field from 1½ to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1000 acres?

have found them to agree unanimously with the above carculation.

Perhaps no invention offers greater inducements for a
profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of
money could without doubt be realized from the sale of
rights in the different Stales of the Union not yet disposed
of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better
or more money-paying business.

READ the following proof of what we have long as asserted, via: that the Mustang Limiment is the quantom of all external remedies over before offered to afflicted: sifficted:

"Wm. M. Johnston, No. 112 Second street, Pittsburg, says that he had a severe attack of Rhoumatism in his right hip; after suffering some ten days, the left hip also became af fected, and he was obliged to 'lay up.' The pain was constant and excruciating. He had heard of the wonderful effects of the Mustang Liniment in Rheumatism, and determined to try it. One small bottle, thoroughly applied, performed a perfect cure! B. H. Meakings, 189 Walnut street, Cincinnati, was confined to his bed and under treatment of a physician some six weeks with Neuralgia of the whole of his right side, log, arm, and face. His sufferings were indescribable, and theonly cessation from the most agenizing pain was while under the influence of opium or morphine. His doctor finally advised him to try the Mustang Liniment; he did so, and in two days was able to go about his business, perfectly cured."

"The Lame Made to Walk.—About the first of April I

"THE LAME MADE TO WALK.—About the first of April I cut and laid open the fore finger of my left hand, through the bone and across the second joint, nearly dissevering it from the hand, being about two-thirds off. I was fearful that I should lose the use of my finger forever; but I bound it up with the Mexican Mustang Liniment, and it soon healed up, and is now perfectly well, though somewhat scarrified. I used nothing but the Mustang Liniment.

"About one week ago I had the misfortune to cut the cap of my left knee in two with the sharp corner of an axe. The cap was split asunder, and for a day or two I could not use my leg at all, and I was afraid that I would lose its use forever. The cap was cut and cleft to the joint with a deep and alarming gash, and it gave me great pain and uneasiness, lest I should be entirely deprived of the use of my leg. I applied the Mexican Mustang Liniment, and that alone, in both of the above cases, and I am now quite well, except the cap of my knee is a little swollen, and is tender about the cut, which is healed up and shows a fresh red appearance of about one inch and a half in length and a quarter of an inch in width, but gives me no inconvenience whatever.

"I walked fifteen miles yesterday out of the thirty miles from the place where I live near the Sulphur Springs, in Jefferson county, and feel able to walk as many more today. My recovery has been so wonderful that I feel it my duty to make it public, that the world may know the value of the Mexican Mustang Liniment.

## NEWS BY TELEGRAPH.

Arrival of the Southampton. New York, August 5-2 p. m. The United States store-ship Southampton, lieutenant Turner, has arrived in eighty-six days

from Callao. No important news.

The Markets. BALTIMORE, August 5-2 p. m. The New York, Philadelphia, and Baltimore narkets are without any notable change to-day.

Missouri Election.

ST Louis, August 5-10 a. m. The whole Democratic county ticket is elected without a doubt. Col. Benton is elected.

The Cholera.

ROCHESTER, Aug. 5-11 a. m. Within the past twenty-four hours, there have een twenty-four new cases of cholera, and ninecen deaths. There were six fatal cases in one ouse. The disease seems to be increasing. Many stores are closed, the occupants flying to the country to escape the infection. There is much excitement.

Verdict of the Coroner's Jury in relation to the Victims by the Henry Clay Dis-

New York, August 4. The Coroner's Jury have rendered a verdict that the victims by the burning of the steamer Henry Clay came to their deaths by the reckless acts of the owners and officers of the boat, and their disregard of human life. This verdict accords with the second statute law defining murder.

The Fishery Question-Later from St. John's.

Boston, August 3. By the steamer "Admiral" we have St. John's N. B., papers to the second of August. Vice Admiral Seymour has purchased a brig and schooner, which have been manned and armed to protect the colonial fisheries from encroachment of the French. .

The schooner Union, reported yesterday as seized, was taken in the Gulf of St. Lawrence by the "Telegraph," tender to H. M. steamship Deastation.

The "Brunswicker" thinks that when the people of America understand the matter, they will have but little cause of complaint. It considers that the reported terms of the new reciprocity bill are too favorable to the Americans. The Courier again explicitly declares that there is no intention to enforce the headland to headland part of the fishing treaty, nor to demand reciprocal free trade as the price of arranging the question.

Success of Flores-Probable Capture of New York, August 4.

Private advices from Payta state that an engagement took place on the 8th July, between Flores and Urbina, in which the latter was defeated with great loss. Flores intended to take possession of Guayaquil on the 10th ult.

Steamer Destroyed by Fire.

The steamer Susan, running between here and Detroit, took fire at her dock last night, and was completely destroyed. No lives lost.

Toledo, (Ohio,) August 4.

Missouri Election. ST. Louis, August 4. The returns from the city are still incomplete. but no doubt exists of the election of the whole Democratic ticket, with the exception of member of Congress and sheriff. These are still in doubt, and nothing can be known till the whole vote is counted out. Returns from the State are favorable to the election of the Democratic governor

by a reduced majority.

Affairs in Georgetown. Georgetown, August 5-12 m. During the last two days we have had heavy, gloomy weather, with much rain, which has used nearly an entire suspension of all kinds of

out-door business. Boats continue to arrive steadily by the canals, but not in great numbers. In a week or two more we expect them in perfect fleets. We have been informed that the amount of flour and other produce along the line to be transported to our market this fall is immense, and our enterprising Water-street merchants are prepared for its reception. They anticipate an unusually heavy

A first-class canal steam packet-boat will commence plying between here and Cumberland the last of this week. She is to run in connexion

with the tow-boat Belle. Some days past, while Mr. Edmundson, a hand in the mill of A. Ross Ray & Bro., was at work over the water-wheel, he lost his footing, and fell to the bottom of the wheel-pit-a distance of ome thirty feet-striking among some loose rock, injuring himself very seriously. He has seen confined to his room ever since.

A heavier yield of corn is anticipated this fall than has been for several years. ELECTRO. Democracy and Federalism.

From every direction we continue to receive

the most glowing accounts of the growing crops.

Already, in view of the coming election, is the so-called "Democratic" press teeming with the usual slang about "Democracy and Federalism," for the purpose of keeping up the deceptions which have long been by them practised upon the people of this country. We would like to have the exclusive Democracy stand up to an investi-gation of this subject. We would like to have them point to any measure that was supported by the ancient and now obselete party called Federalists, which the Whigs now support. We would like to have them show anything whatever that identifies the Whig party with the opposite of democracy in its legitimate sense. But no. Their purpose is best served by keeping up their foul slanders on the Whig party and deceiving the ignorant. A high-toned political investigation is entirely out of their line of business. Instead of honorable discussion of any real questions at issue between the two parties, they rely chiefly upon charges which they know to be false—charges that the history of the country proves to any man of common sense to be false—charges that the Whig party are Federalists, and opposed to republican principles and the essential features of our government. And they have hitherto succeeded but too well. How long will the people consent to be thus deceived and thus virtually disfranchised? How long will they thus swallow these absurd slanders? If documentary proof that all the essential measures of the Whig party were supported by our early Democratic Presidents is given, we are answered with the cry that "the Whigs are Federalists," and the principles of Jefferson, Madison, and Monroe are cast by the modern Democracy under foot. Are any arguments offered on any question really at issue, they are met with the knock-down argument "rich richer, and poor poorer," &c. And thus are real issues kept from the consideration of the people .- Fairmount (Va.) Republican.
